

Attachment II – Payment Schedule

- Attachment II -

Payment Schedule

\$ _____ Total cost* for entire Web design project.

*The total cost above does not include additional fees, hourly rates, graphic design fees, hosting fees, or domain registration fees that the CLIENT will, if necessary, be required by the CONTRACT to pay. These are not a part of this Payment Schedule, but are mentioned here and are understood as being an additional charge.

\$ _____ Total due at signing of CONTRACT (50% of estimate*)

*Estimate does not include additional fees, hourly rates, graphic design fees, hosting fees, or domain registration fees that the CLIENT will, if necessary, be required by the CONTRACT to pay. The estimate is merely an averaged rate of \$15 per page, up to six pages, that are covered under the CONTRACT.

\$ _____ Total due on completion of CONTRACT*

*Contract will be considered "Complete" when the CLIENT's Web site is fully functional and contains all content specified by the CLIENT covered under this contract. This contract can be considered "Complete" prior to payment of additional fees, hourly rates, graphic design fees, hosting fees, or domain registration fees that the CLIENT will, if necessary, be required by the CONTRACT to pay. However, the CONTRACT remains in effect until all additional fees, hourly rates, graphic design fees, hosting fees, or domain registration fees are paid, and the CLIENT will be held responsible for such fees until they are met. The completion of the contract does not mean the Web site will be made publicly available. The Web site will be publicly available upon full payment of CONTRACT payment and any additional fees, hourly rates, graphic design fees, hosting fees, or domain registration fees that the CLIENT will, if necessary, be required by the CONTRACT to pay
